

Relay Socket for DIN Rail

Product Code

207.900.001

Dimensions & Diagram

Technical Data

Compatible Rails	Ω type 35x7,5 and Ω type 35x15 DIN Rail
Rail Standard	IEC/EN 60715, EN50022, BS5584, DIN46277-3
Compatible Relays	ELO 710 & 720 & 730 Series Relays
Material	PA66GF30
Ambient Temperature	-40/+90°C
Dimensions	30 x 41 x 18mm

Product Details

ELO Relay Socket for DIN Rail provides easy installation for the commonly used rail in industrial devices and control panels. The relay socket is compatible with 710, 720 and 730 series Mini and High Current Mini Relays. ELO Relay Socket for DIN Rail allows relay connections to be made in advance. It ensures the installation of all relays in secure and aligned form. If necessary, the relays can be easily disassembled without damaging the product and can be used again for a different product or in a different place.

Notes

Relays on product visual are for demonstration purposes only. Relays are sold separately. All measurements are in millimeters.
